

TECHNICAL DATA SHEET

LUBAKLENZ II

DESCRIPTION:

Lubaklenz II is a specially formulated hard surface and equipment cleaner. Water based for safety and economy. Use as supplied or diluted with water. Typically 5 :1 or 10:1 dilutions will give the best results.

USES:

Lubaklenz II is a fast acting hard surface cleaner that can be used on all surfaces and machinery. Specially formulated to clean areas where aqueous silicones have been present or where SILSTRIP® is not suitable.
It can also be used as an after wash when Silstrip has been applied first.

TYPICAL PROPERTIES:

Type	Formulated surface cleaner
Appearance	Blue Coloured Liquid
S.G.	1.18 at 25°
pH	12-14

STORAGE & SHELF LIFE:

When stored in its original containers at temperature below 32 °C LUBAKLENZ II has a minimum shelf life of 18 months.

SAFE HANDLING PROCEDURES:

Safe handling procedures for this product can be found in the MSDS for this material which is supplied upon request.
